

Sound Encoding --The Completion of Creation Part 1 of 5
by Peter Farley www.4TruthSeekers.org

Like the new release of, or new model of, some outstanding invention, what is now coming back into this corner of the Universe so devoid of the true Light and its companion the Divine Melody, is sound-encoding of the DNA-stream of supreme energy grid consciousness.

The twin pillars of Creation are Light and its companion, Sound. Spiritual paths which speak of only one without the other are out of balance and not understanding of the composite nature of Creation--the Male and female, and the catalyst that ignites and fuses the two into one. This is the Holy Trinity.

In transcribing the original Creation story of this Super Universe--Nebadon, I thought I had the basic understanding, until recently. The more the Spiritual Hierarchy have had me working with the 'healing' and ascension' of the female energies of this area of Creation, the more I have had to delve deeper into the role played by the female in creating the Darkness that existed long before planet Earth was created.

This led me to a better understanding of the Biblical 'tales' of Adam and Eve, and Eve's role in metaphorically taking the first step AWAY from the true Light of the FATHER.

"Sofia is patterned with the DNA of a Dark Mother Incarnation on planet Earth. She is the one capable of bringing through the army or darkness's energy and opening the gates for the energy of Dark Mother to incarnate on Planet Earth, pushing/splitting Gaia away from its present Heart."

Since I begun this mission more than a dozen years ago now, the presence of Creator energies in certain Beings walking the planet and interacting both with each other and the world at large, has been an understanding it has been difficult to accept.--not just for me, but for those very Beings whose physical form carries the imprint of these energies.

To say that one Being such as the one referred to above as Sophia could bring about the complete domination by Darkness of a planet, galaxy, or Universe by what she decides to do here in the physical ups the stakes for our own understanding of how Creation works and even our role in being here in this lifetime to help prevent such events from happening.

As reflected in the motto of Thoth (Hermes Trismegistus), "As above, so below", the spiritual war taking place in Creation right now is manifested, reflected, and even brought to resolution by the events presently taking place on planet Earth.

Spirit(God) works THROUGH people, is a major understanding of doing the spiritual work here on Earth. Especially is this true in the type of healing and grid work I do. No healer can take credit for being more than a good channel for the energies working through him or her. With the grid work, it is very much the same. Our higher selves do much of the

work in tandem with the Guidance directing the overall war.

"The energy that she brings along with herself is that of a corruptor of the highest level, for she is about to bring on the energy that would convert a whole planet. Her intent, as that of her dark mentors, is to destroy the connection that lightworkers have to the Light, and bring about a shroud of darkness that will engage them in the terrible attempt to clear Earth of any Energies trying to heal the darkness already installed here trying to disrupt the ascencion."

As with the series of Matrix movies, the war taking place outside the Matrix is reflected in what is taking place inside the Matrix. The key to winning the war outside the Matrix relies heavily on doing the work of capturing the right people and energies existing within.

"The planet has reserved a special darkness that is kept away within a core of diamond encrusted caverns in South America and is kept away even from the dark eyes of the New World Order. These diamonds include much of the darkness that was already cleansed, and they need time to be removed from the planet as a whole type of new energy, and then sent into the Sun for transmutation."

Energy cannot be created nor destroyed, only changed from one form to another. So often in doing the healing work I do with these special energies, it is I who must take on the darker or corrupted energies within the person to be healed so that my 'clearer' etheric body can process them at a faster rate. Yes, many energies can be 'thrown' into the Light for transmuting, but many energies created here on planet Earth MUST be transmuted here on planet Earth --especially if that person is to ascend into a higher level of Soul resolution.

"The energy she carries along with her will be activated when you least expect it. It is necessary to disable the DNA patterns responsible for allowing her to channel this type of energy altogether. The energy that she has brought about so far was repressed by her self, in an attempt to keep the darkness contained within her being."

The more I work with all of those, all of US, who have had our flirtations with the Darkside, the more I see the tendency toward a schizophrenic duality going on within higher level Beings fighting back their past failures in succumbing to the darkside, and their drive and the opportunity Edgar Cayce says we all now have to come back 'at the rising of Atlantis' to make different choices from those we have made in the past. the patterning of the past is within each and every one of us and is too difficult for most of us to overcome without a great deal of spiritual healing aid. Reprogramming the DNA is a function of this new Light and Sound Encoding process.

'Like others (André) the darkness will spring forth as she develops and becomes more aware of who she is, in the process of her spiritual

healing. It is important that the connection she has to darkness is permanently disabled and permanently turned to Light, so that the Light she attracts and channels will be able to repel (keep away) the darkness that will be sent to reactivate the dark DNA sequences.

"Her intent about this reprogramming is of ultimate importance as it will decide what she will permanently become - a Light Warrior or a princess of darkness, soon to become a queen and embodiment to dark mother as the process of planetary possession takes place - in the supposed scenario that it can be if not stopped."

In my explanations of the experiment that planet Earth is, it is explained that the third group of 'aliens' interacting with the planet were the 'good' guys of the bunch, or well-meaning at least. They decided, as a committee, to use the planet for an experiment in breeding a new kind of Being in the Universe using some of the old Beings as starter material. Like a selective breeding program, 12 or more races were chosen as the basic breeding stock with which to enhance the basic slave Being existing on the planet at that time.

The eventual goal of the breeding enhancement program was to create a new kind of Being, one that was more multi-dimensional in its potentiality, have a wider range of experiences available to it, and one that could potentially speed up the evolutionary process of spiritual awareness in the entirety of Creation. This, of course, would be done through DNA modification and the process of genetic enhancement.

Good plan, bad execution. As one might say, even the best laid plans . . .

The major flaw with this plan was that the races that were chosen to be the breeding or genetic stock for this new race of Beings, didn't get along out there in the Universe, and bringing them all together here on planet earth -with a few too many cooks already stirring the broth as well as the occasional loose canon group of aliens thrown in to boot . . . nothing seemed to go right.

The DNA, the Holy Grail of planet Earth, the Da Vinci Code of our alien heredity, the ultimate Tree of Life reaching back from planet Earth into the heavens, was screwed up from day one on this planet. And before that, without both the Light AND Sound encoding from the correct highest process of Creation involving BOTH the male and female energies in creation, Mankind's ability to fight their own 'bad genes' has been almost impossible from the very beginning.

The grooves in our record are too well worn, too deep, and too well manipulated by everything around us for most of us to even put up a good fight against what the darkside knows how to do so well -- keep us as slave prisoners for their own ulterior motives.

The New World Order's stranglehold on Man is based in the control of this DNA. The Caduceus or Thoth's Staff shows the snakes holding sway over Mankind's DNA respresented by the staff trying to take wing back heavenwards.

Here are the words of the Darkside leadership sending Sophia on her way to her dark, dark mission here in this lifetime: :

"Go now my dear, for you are the serpent that will encoil Planet Earth, and corrupt its essence, turning Gaia away from her children and making it the Dark Whore House that we deem it to become.

"Once you accomplish this task my dear child, you will be taken back to the core of the planet where Gaia once resided, and you will then be turned into the very Dark Mother that runs the Planetary portal into the Heart of Creation and the Father's Essence will be yours to command...

"But fail and i will make sure that you are encrusted beneath the roots of the dead trees on Planet Earth itself as it is destroyed by my dark legion of marauders - the space pirates."

Many Beings I have worked with over the past few years of doing this type of spiritual healing work have memories of such threats against their Soul's very existence should they once again take up the Sword of Righteousness, or stray from their dark programming. Many of the implants and crystal imprints by which we are controlled 'energetically' have such programming which triggers and creates fatal diseases within the lifeform should their existence be threatened or attempts made to to go beyond their limiting abilities.

And just as pretty much every one of us is implanted or programmed to accept these darker purposes, so too is the entire crystalline network of the consciousness grid surrounding the planet.

"Go now, your time is running out already. You are to channel Dark Mother's energy from our Sortha energy form and turn it into the grid crystals that will enable population sensitivity to this type of energy. As the humans become sensitive to this depravated energy pattern, they will automatically lower Gaia's defences against outside darkness.'

Since I was very young I have looked at life around me and commented to myself, "It's not supposed to be like this." How can anyone judge another when the cards are so heavily stacked against Humankind. How can anyone overcome such an advanced technology of control?

"And then we will become able to send in more energy to your physical form, opening an enormous portal that will allow the conversion of Gaia into an empty rock, the ultimate possession by the Dark Mother, which will then be guided by your conscious energy form!!"

Faced with the eons of dark control and reprogramming of this Being's initial grander mission here in this Super Universe, it took all of the powers of heaven and earth to finally get Sophia erased of this

old programming and newly encoded by the Light and Sound of the FATHER--her Higher Self being returned to the Central Universe for cleansing and healing from all it had gone through.

Sound Encoding --The Completion of Creation Part 4

It was important that not only Sofia's DNA be released from its Dark patterning and that the Crystals on the Grid that were connected to her dark energy form also be turned to the Light, but that the DNA of every living individual aspect of Soul in this corner of the Universe also be returned to the correct way of encoding Soul--that is with both Light AND Sound encoding, that of the male AND female aspects of Creation.

The dark crystals implanted along the grid system of the planet are meant to transmit the energy Sophia would supposedly channel to mortals, and these mortals would, through their own weaknesses and self-willed actions, magnify, thereby weakening Gaia's defenses.

The crystals on the grid are still very much linked to her Higher energy form. However, now that she, through her own courage and the help of many here on Earth and in the higher worlds, has been healed, the Crystals can also be turned to relay her healing energies to the whole Planet, or at least the areas that are most influenced by her Soul's higher will.

Being a representative of the grandest female energies of Creation, this act of healing both Sophia and her Higher Self will then be able to bring about or heal most of Earth's negative programming regarding the female energy blockages. This will also strengthen Gaia's defenses against darkness and the corruption of female energy since people will be receiving healing energy-- female healed energy--which will allow for the weak points or imbalances inherent in the creation of this corner of the Universe to be fixed. This will begin to take place as people are newly Sound AND Light encoded, and as the sound encoding which has been missing from this corner of Creation is reprogrammed into the planetary consciousness grid to be filtered out to every living thing.

(The previous sections have been written with the aid of The Spiritual Hierarchy's Council of Light, with contributions from AREHMMZELL as well).

Intent--Perfect Intent-- is everything in this type of healing.

"There is no need for people to be afraid, of Light, for their Soul is made of Light. What blocks the will to become again one with the FATHER is that their intent has been literally hijacked by darkness in the way that it was isolated from the vehicle of their manifestation - the lightbody, and on Earth, the physical body more than anything else.

"Trapped without the will to escape, so it is that the person is completely dependent on external aid for becoming released from the darkness that engulfs its Heart and Soul, for they are one and the same - the portal that is fully linked to Creation's Origin, The FATHER

"The problem with the encoding of sound is that, since Lucifer made, or modified the light bodies of his staff, he was unable to guide the process in Perfection as the Creator Parents did once.

"Imbalance makes for a lesser portal, and so Light does not make it through in perfection, if at all, it only makes it through the deformed prana tube, to come out as lesser, dark light.

"There is a need to pull from both sides when creating a Being - a pull from a Mother, and a pull from a Father, so that the Being is created through a balanced process. If there is no balance, then the Being is created lacking a sufficiency of Light and of Love, and will be prone to abuse from others that are dark, or if there is no dark, then the Being is prone to creating patterns of lesser light, which is darkness.

"There is no need for making scary faces to show the ones on the side of the Light, because the ones on the side of the Light that came here to work and do not, are already far more than scared by themselves. They fear the contact with their Hearts because of how they have grown used to the lesser lightbodies that they live through. The lesser enlightened bodies make it seem like the Light burns and sears through one's consciousness, when the only thing that is seared through is the deformity of the ego, and its programmed errant self will.

"Their light bodies are no longer able to house patterns of the Highest Light because they were either modified or damaged or created in a lesser/dark way by Lucifer and the errant Soul known as Kali. There is also the shattering of the lightbodies, usually each with different programming, that are awakened and used by the darkside, and are easier to control and subdue than a perfect whole Being of Full Light.

"Some Hearts/Souls of perfect beings were implanted further with imprisonment mechanisms. The hearts were then limited and unable to hold together the lightbodies - thus making it impossible for the Being to function as it should.

"That is the corruption of the Heart - the surrounding of it by darkness and the limiting of its ability to communicate and hold the body together, so then the body is no longer guided by Light, because there is a separation from its Source... which is the Heart of the Being.

"There is no more need for running, for all that can be healed is laid before you, and made clear, with help for you to reach through for it. You will reach through it, if you have the will to do so, and nothing can stop your Will from being the Highest, but yourselves focusing on lesser objectives."

André, with RAJ, HAROON, ARTOLA, LUCIFER, KALI and the FATHER
